Two Decades of Clean Energy Excellence

Fourgreens Technology Pvt. Ltd. was established with a singular vision — to accelerate India's transition to clean, renewable energy through engineering excellence and uncompromising quality. Over 20 years, we have grown from a specialist solar advisory firm into one of Maharashtra's most trusted end-to-end renewable energy solutions provider.

We partner with Investors, Project Owners and Lenders to deliver maximum value at every stage — from concept and feasibility through to commissioning and long-term asset management. Our team combines deep engineering knowledge with rigorous procurement standards, ensuring every project meets the highest benchmarks for performance, reliability and return on investment.

Our Founding Pillars

End-to-End Solutions. Concept to Commissioning

Fourgreens is a full-spectrum EPC and Asset Management service provider with specialised teams covering every stage of the renewable energy project lifecycle — ensuring seamless delivery, bankable engineering and measurable long-term performance.

Feasibility Analysis Report

Site assessment, resource analysis, yield modelling, and bankable feasibility reports.

Design & Engineering

Complete electrical & structural design with SLDs, layouts, load analysis, & equipment specs.

Procurement

Global sourcing of Tier-1 equipment and BOS components with full traceability, warranty, & QA.

Installation

Certified installation to IEC & IS standards — on time, on budget, and built for safety and quality.

Testing & Commissioning

System testing, PR verification, grid sync, SCADA integration & compliance sign-off

Operations & Maintenance

Long-term O&M with monitoring, maintenance, reporting, and warranty management.

ONE PARTNER · EVERY STAGE · TOTAL ACCOUNTABILITY

Trusted by India's Most Prestigious Organisation

Over two decades, Fourgreens has delivered renewable energy solutions for India's most respected PSUs, corporates, institutions, and developers.

Public Sector & Government

Corporate & Industrial Leaders

Real Estate & Infrastructure Developers

The Fourgreens Advantage

Why Choose Us?

20 Years of Expertise

Two decades of commercial and utility-scale renewable energy project expertise.

Bankable Engineering

Lender-grade feasibility studies and performance-backed system design.

Quality-First Procurement

Tier-1 components with traceability, QA, and warranty management.

Proven Track Record

500+ renewable energy projects successfully executed

End-to-End Accountability

Single-point responsibility from feasibility through lifecycle performance.

Long-Term Partnership

Single-point accountability from feasibility to performance and warranty management.

SECTORS WE SERVE

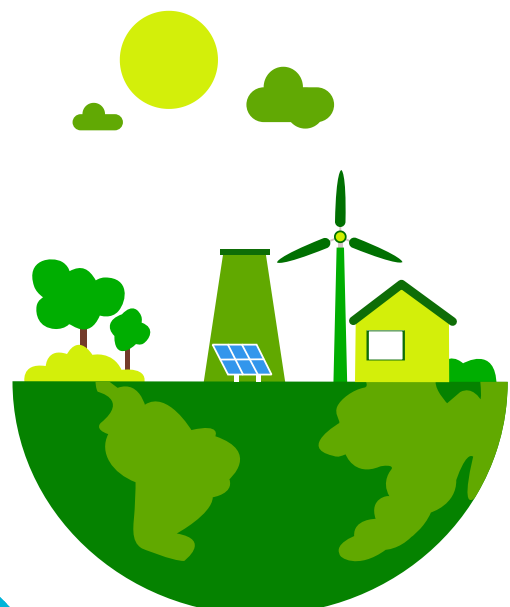

● Commercial & Industrial

● Manufacturing

● Institutions

● Government & PSU

● Independent Power Producers

GET IN TOUCH

Let's Build Your Clean Energy Future

We would welcome the opportunity to discuss your renewable energy requirements. Our team is ready to provide a no-obligation feasibility assessment and project proposal.

REGISTERED OFFICE

No. 8, Sr. No. 86B, Devpark, Veer Savarkar Road, Vasant Tekdi, Savedi, Ahmednagar – 414001, Maharashtra, India
